

**JSC ARTEMOVSKIY PLANT "DORINDUSTRIA"**

## JSC ARTEMOVSKIY PLANT "DORINDUSTRIA" Artemovsk - UKRAINE

**Welcome**

*Dear Sirs,*

Welcome to JSC Artemovskiy plant "DORINDUSTRIA" – machine building company that has great experience in manufacturing and revamping of Road Construction & Maintenance Machines, Road & Pavement Rollers, different types of Attached Implements for Combined Road Maintenance Trucks and Spare Parts for Industrial Installations. The company produces the Metal Road Guardrails as well.

The company was founded in 1932 and since that time has recommended itself as a reliable business partner in Ukraine and countries at the area of former Soviet Union.

Production facilities are located in the South-Eastern part of UKRAINE (Donetsk region), 80 km far from regional center - the city of DONETSK. Total area of the site is approximately 13 ha. Opportune accessways for automobile transport and closeness of the MARIUPOL sea port (less than 200 km far from the site) are the advantages of company's location.

One more advantage of the company location is the closeness of Ukrainian-Russian border. The distance by motorway is no more than 200 km.

**Production facilities**

#	Type of manufacturing	Product description	Equipment
1	2	3	4
<b>Casting</b>			
1	<b>Iron casting</b> Gearbox bodies, gearbox lids, hatches, grating, etc.	weight of unit – up to 400 kg	electrical arc furnace, approximate annual capacity – up to 900 t
2	<b>Steel casting</b> , including carbide steel and alloyed steel casting Gearbox bodies, gearbox lids, wheels of bridge cranes, etc.	weight of unit – up to 400 kg	electrical arc furnace, approximate annual capacity – up to 800 t
<b>Forging and Blanking</b>			
1	Forged pieces of round, square and rectangular section	weight – up to 30 kg	Hydraulic hammer
2	Sheet punching of parts using sheet steel	bed plate 500 x 500 mm; bed plate 2000 x 2000 mm	Crank presses, effort - 315 t, Hydraulic presses, effort-630 t
3	Cutting of sheet steel	thickness – 1 to 25 mm cutting width – 300 mm	
4	Setting of sheet metal	thickness – up to 30 mm width – up to 3100 mm length – up to 6000 mm	Sheet setting machine
5	Thermal treatment: tempering, cementation, HFC (high-frequency current) treatment	diameter – up to 600 mm length – up to 1500 mm	Chamber electrical furnaces, shaft furnaces, HFC plant
<b>Metal works manufacturing</b>			
1	Metal works made of thin and thick sheet, round and profiled metal, pipes and shells	Weight of separate units – up to 15 T. Approximate annual capacity – 1500-2000 T	Welding semi-automatic machines,

**Production facilities (cont.)**

1	2	3	4
<b>Machine work and assembling</b>			
1	Turnery	Diameter – 16 up to 400 mm Length – up to 2000 mm	Lathes: - lathes; - turret lathes; - drilling machines; - milling machines; - grinding machines; - sharpeners; - gear-cutting machines; - gear-mortising machine; - cutting machines; - un-cut boring machines; - boring machines - etc  Hydraulic presses  Welding equipment  Test benches  Lifting equipment
2	Milling		
3	Jig-boring	Weight of rough part – up to 50 kg	
4	Boring	Bed plate 1250 x 1250 mm	
5	Planing	Length of rough part – up to 3000 mm	
6	Gears manufacturing - internal tothing - external tothing	D up to 800 mm, m=12 D up to 1400 mm, m=12	
7	Drilling	D of holes – up to 50 mm	
8	Turning-and-boring	D of rough part – up to 2500 mm Height of rough part – up to 1000 mm	
9	Rolling of sheet metal	thickness – 1 up to 12 mm width – up to 1800 mm R – from 500 mm	
10	Welding - in carbonic gas environment  - under melt	D – up to 1500 mm, Length – up to 1500 mm	
11	Assembling of out-of-standard units		
12	Lifting and Transporting	Max. weight of single piece – 15 T

**Drive for development**

At the end of 2005 the new management of the company has made decision to realign it to manufacture the new types of production that will be claimed not only in Ukraine but far abroad. For these purposes the company's specialists search actively for new business partners, new processing equipment and implement modern progressive technologies.

We continue to increase volumes of the production that is claimed by our customers. Particularly, we produce:

- ✓ Metal Road Guardrails (without coating, flattened, hot dip galvanized);
- ✓ Metal Tanks and Containers;
- ✓ Knives for graders;
- ✓ Sand spreading and plough equipment for installing at the КрАЗ, КАМАЗ, ЗИЛ, МАЗ, УРАЛ trucks;
- ✓ Combined Road Maintenance Trucks

Furthermore, at the moment we are working hard to develop the company in the following areas:

- ⇒ Manufacturing of the hot dip galvanized Metal Road Guardrails according to European standards;
- ⇒ Manufacturing of parts of the radio & GSM tower constructions;
- ⇒ Metal works manufacturing

**Business invitation**

We are looking for business partners in Ukraine and abroad to realize joint projects at the ground of our production facilities located in Artemovsk. We are offering cooperation in the following areas:

1. Manufacturing of the Road Construction and Maintenance Machines (including utilization of the spare parts and technologies of Partner's side) with further distribution in CIS and European countries;
2. Manufacturing of the hot dip galvanized Metal Road Guardrails according to European standards for further distribution in CIS and European countries;
3. Manufacturing of parts of the radio & GSM tower constructions;
4. Dealer's services for Road Construction Machines and Industrial Equipment distributing. Large-part assembly of equipment.

We are ready to discuss offers to use our production site to create joint venture with involvement of domestic and foreign investors.
